

NUTRACEUTICAL SUPPLEMENTATION FOR DIABETES: A REVIEW

A review article of Reference no.- **IJPPS 24-31/2011**(Nutraceutical Supplementation for Diabetes: A Review) was published in journal in 2011. The articles have two authors, (Manju Pandey, Vijayakumar). On request the address of first author (**Department of Pharmaceutics, Azad Institute of pharmacy and research, Lucknow, Uttar Pradesh, India**) which by mistake was working place in place of university address from which she has registered.

Department of Pharmaceutics, Suresh Gyan Vihar University, Jaipur, India will be read as address of first author of the published article. Reason is that university, from where she has registered for Ph.D, recommends its university name in article for attachment in Thesis.

With Regards,

Manju Pandey
